

# Table of Contents

## Session 1: Future Supply and Industry Trends

KEYNOTE: Future Availability of Feedstock for the Global Wood Based Panel Industry <i>Marcel Vroege</i> .....	3
--	---

## Session 2: VOC Emissions and Resin Developments

Latest developments regarding classifications and regulations on emissions from building products <i>Martin Ohlmeyer</i> .....	7
A New Innovative Approach for Urea-Formaldehyde Resin Adhesives with Low Formaldehyde Emission and Strong Adhesives <i>Byung-Dae Park</i> .....	13
A derived method for the quick assessment of VOC emissions from wood-based panel <i>Friederike Mennicke and Martin Ohlmeyer</i> .....	15
Uses of biomaterials for wood panel adhesives <i>Bruno Gorrini, K. Peredo, A. Muñoz and S. Pardo</i> .....	27
Sitka purses from pig's ears <i>Dave Preskett and Rob Elias</i> .....	39
Development of new solutions for wood based panels with improved water resistance <i>M. Dias, J. Pereira, B. Nogueira, R. Magalhães, N.T. Paiva, J.M. Ferra, J. Martins, F.D. Magalhães and, L. Carvalho</i> .....	49

## Session 3: Innovation and Performance of Panels

Innovation and high performance MDF & OSB as enablers of offsite construction <i>David Murray</i> .....	61
RFID SMART wood <i>Mouna Ghorbel and Frits van Calker</i> .....	63
Adhesive free paper honeycomb core and related manufacturing processes for use in environmentally friendly sandwich panels <i>Max Britzke and Philip Rosenbusch</i> .....	71
Effect of panel moisture content on internal bond strength in medium density fibreboard <i>R. Magalhães, B. Nogueira, S. Costa, N.T. Paiva, J.M. Ferra, F.D. Magalhães, J. Martins and L. Carvalho</i> .....	79

## Session 4: Horizon Scanning – Emerging Themes

The role of timber products in a circular economy <i>Callum Hill</i> .....	89
---	----

Wood based panels in modern methods of construction for housing: a greenhouse gas abatement analysis <i>M.J. Spear, A. Norton, C.A.S. Hill, C. Price and G.A. Ormondroyd</i> .....	95
---	----

## **Session 5: Standards – Delivering Quality and Service Life**

Establishing a quality standard for WPC decking <i>Janet Sycamore</i> .....	111
Service life performance of bio-based composites <i>Anna Sandak and Jakub Sandak</i> .....	113
Fire performance standards and how they apply to panel products <i>Jerry Quayle</i> .....	121
Novel ionic liquid (ILs) based fire retardant for veneer-based panels <i>Jussi Ruponen, Jari Kukkonen and Mark Hughes</i> .....	135
Investigation of effect of fire retardant additive on particleboard and fibreboard properties <i>S. Medved, D. Jones, P. Fællø, D. Pirš, M. Humar and B. Lesar</i> .....	141

## **Session 6: Recycling**

On reactivation of recycled fibres towards bonding <i>Edmone Roffael Thomas Schneider and Claus Behn</i> .....	151
Recycling waste fibreboard <i>M. Irle, G. Velez, C. Belloncle, E. Bonnin and M. Lahaye</i> .....	163

## **Poster Session**

Mechanical performance of reconstituted solid wood beams from tropical species <i>C.H. Ndong Bidzo, R. Moutou Pitti, S. Ikogou and B. Kaiser</i> .....	173
Opportunities for performance evaluation and modelling at the Smart Efficient Energy Centre (SEEC) in Bangor <i>M. Spear, A. Dimitriou and G. Ormondroyd</i> .....	175
